

# Create a Robot

1. Color and cut out the shapes below.
2. Design your robot.
3. Glue the pieces on a sheet of drawing paper.
4. Add details to make your robot special.

## and Write

- A. Name your robot and describe three chores it will do for you.
- B. Your robot has a mind of its own. It becomes your best friend. Write a story about an adventure you have together.
- C. After six months your robot starts making strange noises. Write a letter to the Robot Repair Shop describing the noises and what you think the problem is.
